

PLATINUM SERIES MODULAR DRAWER CABINETS

close

- Provides the means for highly organized systems of storage and retrieval.
- Improves worker efficiency and increased productivity.

Installations ranging from only a few free-standing units to rows and rows. Used extensively in facilities requiring high degrees of inventory control, modular drawer compartmentalization quickly accounts for each item in its proper place. Different drawer sizes allow inventories of products ranging in size from nuts and bolts to bowling balls. Fully extended, each drawer also affords fast visual and physical access to contents -- speeding storage and retrieval of every item. Has multi-level stacking capacity. Built and designed to deliver payloads of 400 lbs. per drawer. Engineered to provide years of reliable performance. Features heavy-gauge steel construction, with rugged reinforced cabinet bottoms. Drawers are double-wall design and feature positive drawer glide attachment, high-performance drawer suspension, Hi-Tech handles with removable label sleeves and plastic covers. Partitions and dividers are galvanized. Safetylink® drawer lock guards against tipping. Integrated lock/lockbar design. Cylinder lock with dust cover and jumbo key. Wider bases for forklift access -- removable base closure panels. FOB Shipping Point.

Available in the following colors: (D) Dove Gray, (P) Putty, (B) Wedgewood Blue, (A) Ash, (H) Cardinal Red, (J) Forest Green, (K) Black - please specify.
