

⚡ SEMI-AUTOMATIC STRETCH WRAP MACHINE

[close](#)

- Increase productivity in the shipping department or at the end of a production line.
- Complete with a powered turntable and counter-balanced stretch film mast.

Easy to operate -- simply depress the foot pedal and manually move the mast up and down. Powered by a 115V, 1/2 HP motor with soft start/stop and variable speed control. Variable R.P.M. 3-12. Units come standard with 1 film rod with special spacers that can be used with any height roll of stretch wrap material. FOB Shipping Point.

Approach Ramp...allows the operator to load and unload the machine with a pallet truck (HSA-48 only).

Powered Mast...is available with a 24V hand control to work those taller loads. The hand held control is used to raise/lower the film while the foot control is used to operate the turntable.
