

# Slope Lid Box

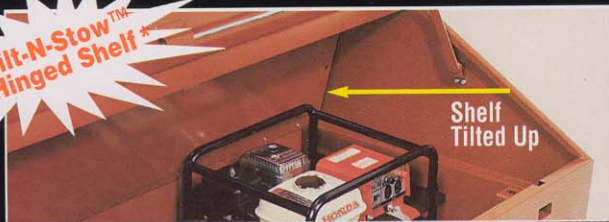

**Heavily-Reinforced 16-Gauge Steel Construction**

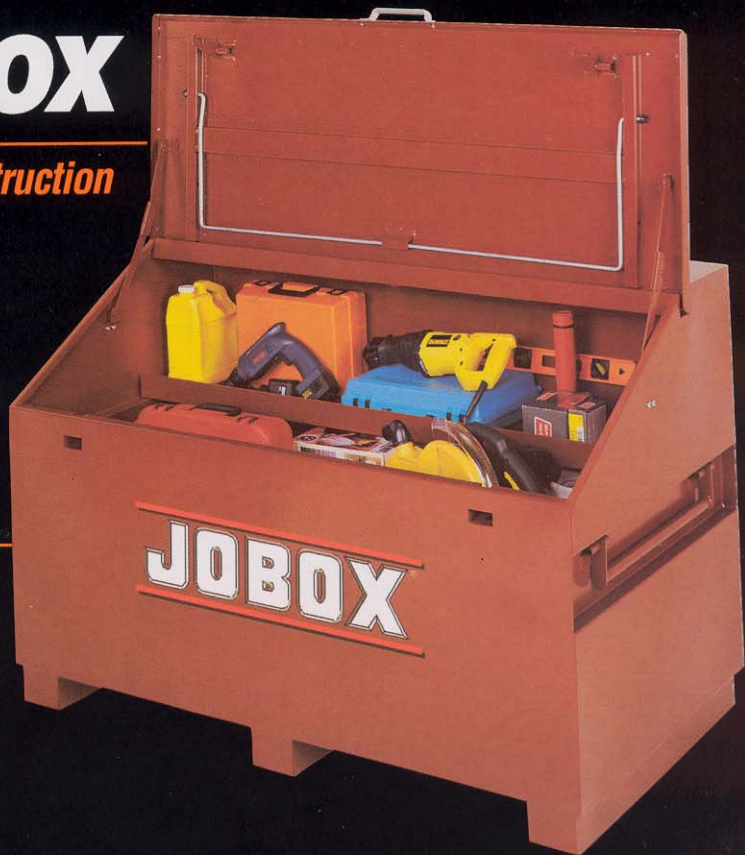

**Fold-away prop supports lid to form large flat working surface at ideal working height.**

## Flexible Storage

**Tilt-N-Stow™ Hinged Shelf\***

Full-length, deep shelf supports up to 500 lbs. when lowered. Shelf tilts up to gain nearly 12" of interior depth to stow wider, taller items. *\*patent pending*

## Superior Security

**Bolt Cutter Free Locking System.** Padlock shackles are protected from cutting tool inside 12-gauge steel housings. Only the key cylinder is exposed. Padlocks cannot be pried out or pulled out of the housing to gain entry.

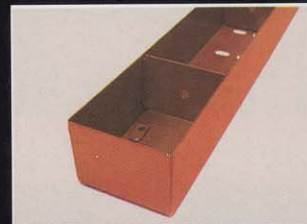

**Reinforced Lid Resists Break-Ins.** Lid reinforced with bolsters and has hemmed front and sides for extra strength and rigidity to resist pry bars. Front edge of lid also has a welded 12-gauge steel plate for additional strength.

## Rugged Durability

**Rain Drain™ System Protects Contents.** Wind driven rain entering the padlock housings is drained to the outside of the box. Channeling water away from the interior protects the contents and box from damage. *\*patent pending*

**Extra-Strong Bottom Bolsters\* For Heavy Loads.** New bolster design provides the strength of 9-gauge laminated steel for twice the load-carrying capacity. Tall 3 3/8" forklift height. *\*patent pending*

### Heavy-Duty Casters

Set includes a pair of fixed and a pair of swiveling casters.

MODEL	Size	Shipping Wt.
601040	4"	15.0
602040	6"	19.0

**Taller body provides huge 32.7 Cu. Ft. of storage space.**
