

Heavy-Duty Chests

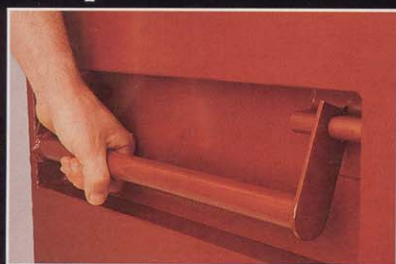

Heavily-Reinforced 16-Gauge Steel Construction

**The Strongest,
Most Durable
Chests In The
Industry.**

- Flat exterior design eliminates exposed handles and improves job site safety.

Improved Safety

- **Handle Recesses Help Reduce Injuries.** Extra tall and deep recess areas prevent pinched fingers when using lifting handles. Deep recesses protect handles from damage.

- **Heavy-Duty Locking Arms Support Lid.** 1" wide heavy-duty steel locking arms resist bending. Arms securely lock lid in open position to prevent accidental closing.

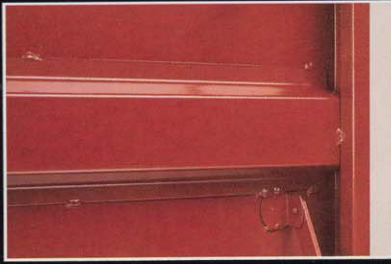

Welder's Box and Small Chests

- Welder's Box Model 650990 has a cut-out for storing tools still connected to fuel tanks. Welded heavy-duty hasp for using padlock. Fold-away lifting handles.
- Model 651990 Chest provides portability in a compact, highly secure design.
- 31" long Model 811990 portable chest fits small spaces. Includes fold-away handles on each end and high-strength bottom bolsters. Heavy-duty, welded hasp for padlock. Lid supported by a chain when open.

MODEL #	L	W	H	Usable	Shipping	Shipping
	Dimensions shown in inches.			Cu. Ft.	Cu. Ft.	Wt. Lbs.

651990	31	18	15 1/2	4.0	5.7	70.0
811990	30	18	14	4.5	6.0	53.0

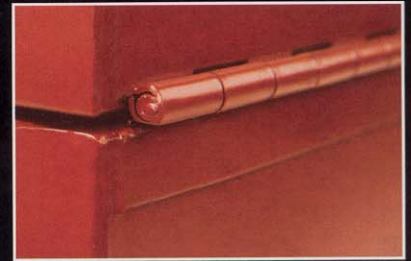

Superior Security

■ **Superior Strength To Resist Break-Ins.** Super strong lids are heavily reinforced to resist pry bars and forced entry. Reinforcements create strength for long-term durability.

■ **Bolt Cutter Free Locking System.** Padlock shackles are protected from cutting tools inside 12-gauge steel housings. Padlocks cannot be pried out or pulled out of the housing.

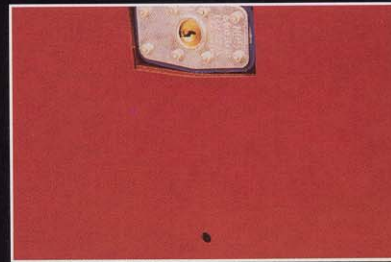

■ **Super-Duty Hinge Resists Forced Entry.** Rugged 14-gauge steel 3/8" continuous hinge with 1/4" steel pin and extra-large 1" knuckles. Staked and welded pin cannot be driven out.

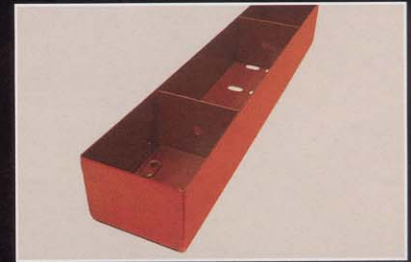

Rugged Durability

■ **Grip Rite™ Channels* Resist Damage.** Deep-recessed Grip Rite Channels reinforce lid and cannot be damaged by passing equipment. Easy to grip when wet or wearing gloves. **patent pending*

■ **Rain Drain™ System Protects Contents.** Wind driven rain entering the padlock housings is drained to the outside of the box. Channeling water away from the interior protects the contents and box from damage.

■ **Extra-Strong Bottom Bolsters* For Heavy Loads.** New bolster design provides the strength of 9-gauge laminated steel for twice the load-carrying capacity. Tall 3 3/8" forklift height. **patent pending*
