

GRATING & RACK DECKS

IMPORTANT: MANY MUNICIPALITIES ENFORCE FIRE CODES THAT REQUIRE 50% OPEN SHELF AREA.

Wire Decks

- With flared channels for all beams.

These universal decks have 3 flared-end support channels. Flared ends rest on top of beams so as to fit all beam types. 2500 lb. capacity – evenly distributed load. FOB Shipping Point.

60% Open Snap Shelf: Exceeds Fire Code Requirements

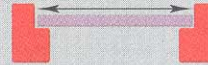

- Open decking stores cartons and boxes.
- Install on all pallet rack shelves.
- Smooth bright galvanized steel surface.
- Handles heavy items better than wire decks.

Each shelf level contains a pair of full-length end channels that are to be tek-fastened in the 1 1/2" deep step-down ledges of your pallet rack beams. (Tek fasteners provided by others.) The carton support members snap into notches in the end channels. Standard spacing has 2 1/2" wide supports with 4" spaces between supports. Other spacing and capacities are available – call for details. FOB Shipping Point. Made in USA.
