

⚡ 50° SAF-T ANGLE LADDERS

- Allows workers to face outward while descending.
- Heavy duty self-cleaning treads are available in two styles.

These ladders are the best choice for the ultimate in employee safety. Built of rugged 1" steel tubing for dependable long-lasting service. Choose from a variety of options to create a ladder to suit most any warehouse or factory need. Ladders from 2-4 steps feature 4 - 2" retracting spring-loaded casters and steel reinforced rubber tipped feet. Ladders 5-12 step feature SAF-T-Lock. Meets OSHA and ANSI standards. FOB Shipping Point.

LOCKING SYSTEMS

Spring Casters...ladders with 2-4 steps have 4 - 2" retracting spring-loaded casters and steel reinforced rubber tipped feet. SAF-T Lock...ladders with 5-12 steps have positive SAF-T lock with release that secures the ladder when an individual steps on the first step. Caster carriage retracts allowing metal reinforced rubber tipped feet to grip floor. Double SAF-T Lock...for 5-9 step ladders the Double SAF-T Lock (see options) is available. This locking system option utilizes 4-4" swivel casters for increased maneuverability from side to side in an aisle or any confined space. (Note: 18"W. 5-7 step ladders feature a safety lock and single wheel design.)

TREAD STYLES

G-Strut - Safety grating for the surest footing when liquids are underneath or area where slipping hazards are present.

G-Perf - Perforated steel tread for normal use where liquids are not present. Easier to sit or kneel on steps.
